LABUAN'S LARGEST SERVICED OFFICE OPERATOR EXPANDS TO PENINSULAR MALAYSIA

The Sun (Malaysia) · 16 Mar 2023

LABUAN: Labuan's largest serviced offices operator Universal Serviced Offices & Management Ltd (USO) has expanded its operations to Peninsular Malaysia following an overwhelming response from various business establishments nationwide. First established in Labuan in February 2021, USO will officially open its co-working/serviced office branch in Bangsar South, Kuala Lumpur in May under Universal Services Office Sdn Bhd. USO CEO Hesham Mansour said the interior design of the serviced offices is based on a Parisian-styled facility. "We decided to expand our operation to the Peninsula after considering the potential market owing to the limited and pricey office space rental around Kuala Lumpur," he told Bernama recently. USO Serviced Offices Bangsar South is located within easy walking distance to the Kerinchi LRT station, food and beverage outlets, supermarkets, medical centres, hotels, banks, pharmacies and convenience stores, among others. Hesham said its Bangsar South branch offers 153 fully equipped working stations, besides 12 workstations in the open/shared coworking space.
